How can Businesses and Corporations partner with groubal?

- Groubal Givers: One of groubal's central goals is create awareness and visibility for companies and consumers alike. To this end we have created a space to showcase businesses that (truly) act responsibly towards their customers and help promote their valued brand. Because groubal does not 'earn' profits from advertising revenues, 100% of the monies paid for this publicity are set aside to reward the groubals that collect the most signatures in a designated month.
- Companies who Care: This category was formed to properly recognize a select group of businesses that understand the fundamental value of Social Networks as a space where consumers come to vent their frustrations. And because groubal accepts no compensation for this limited endorsement, companies must earn the right to be showcased in this elite class of enterprises.
